

Community Response Plan Webinar Series

Part 1
Monday 23rd September

Alice Moorcroft-Hughes,
Communities Prepared, part of the Building Resilience Together
Project Team

Zoe Heath
Community Resilience Coordinator, LLR

People and Communities Standing Group
(Co-Chaired by Kristy Ball, LCC Communities Team and Rachael
Payne, British Red Cross)

Some of the LLR Area **Local Resilience Officers**

Great to have so many on the call, please use the chat and hands up function for questions

Please stay on mute, to avoid background noise

Today's session has a broad focus, please avoid very specific, area focused questions – email communityengagement@leics.gov.uk

Session being recorded and slides will be shared afterwards.

Session 1

Agenda:

Introducing the Building Resilience Together Project

Introducing the LLR Local Resilience Forum

Introducing Community Response Plans

**Building
Resilience
Together**

Introducing Building Resilience Together

**Building
Resilience
Together**

Our vision

This programme will **explore how a network of community-led resilience hubs** can **enable communities** to be better prepared for, and have greater protection against, crises, including the impacts of climate change and severe weather events.

As part of this pilot, we want to test how a community hub system can **better connect the local community response** to that of their statutory responder counterparts.

Working together in partnership

BritishRedCross

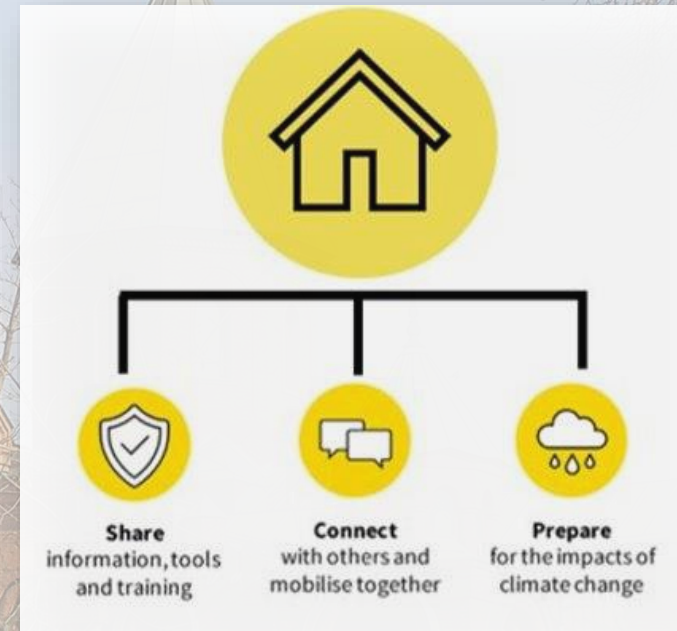

What do we mean by Community Resilience Hub?

Community Resilience Hub as a **space**, which could be **physical** or **virtual** or both which:

- **Utilises local assets / resources** (existing resources, skills, individuals, infrastructure and services)
- **Brings together** community members and groups, volunteers and voluntary organisations, businesses and resilience professionals

So, they can **share** (resources, learnings, best practices, stories), **connect** (across hubs, local, regional and national levels) and **prepare** for weather-related emergencies.

Our Activities: Now-Dec 2024

Community Response Plan Engagement

Three sessions,
delivered to LLR Parish
Councils.

1. What is a Community Response Plan
2. How to complete a Community Response Plan
3. Updating your Community Response Plan

Community Case Study

Capture learnings and
examples of engaged
& activated
communities with
CRPs, flood wardens,
wider resilience
activities

Virtual Hub Development

Engage 1-2
communities to
explore a community
resilience virtual hub,
that can support with
community
engagement and
activation.

Introducing the LLR Local Resilience Forum

**Building
Resilience
Together**

Introduction

To provide an introduction to Community Resilience in Leicester, Leicestershire and Rutland

Civil Contingencies Act (CCA) 2004

The Civil Contingencies Act 2004, and accompanying non-legislative measures, delivers a single framework for civil protection in the UK.

The Act is divided into three parts:

- **Part 1** defines the obligations certain organisations to prepare for various types of emergencies. The Act divides local responders into 2 categories:
 - **Category 1** organisations (such as the emergency services, local authorities and NHS bodies) are at the core of the response to most emergencies
 - **Category 2** organisations (such as transport and utility companies) are ‘co-operating bodies’
- **Part 2** provides additional powers for the government to use in the event of a large scale emergency.
- **Part 3** provides supplementary legislation in support of the first two parts.

Definitions

Emergency:

- an event or situation which threatens serious damage to:
 - human welfare
 - the environment
 - Or the security of the UK or of a place in the UK.

Major Incident:

“An event or situation, with a range of serious consequences, which requires special arrangements to be implemented by one or more emergency responder agencies.”

Local Resilience Forum

Category 1 Responders within LLR

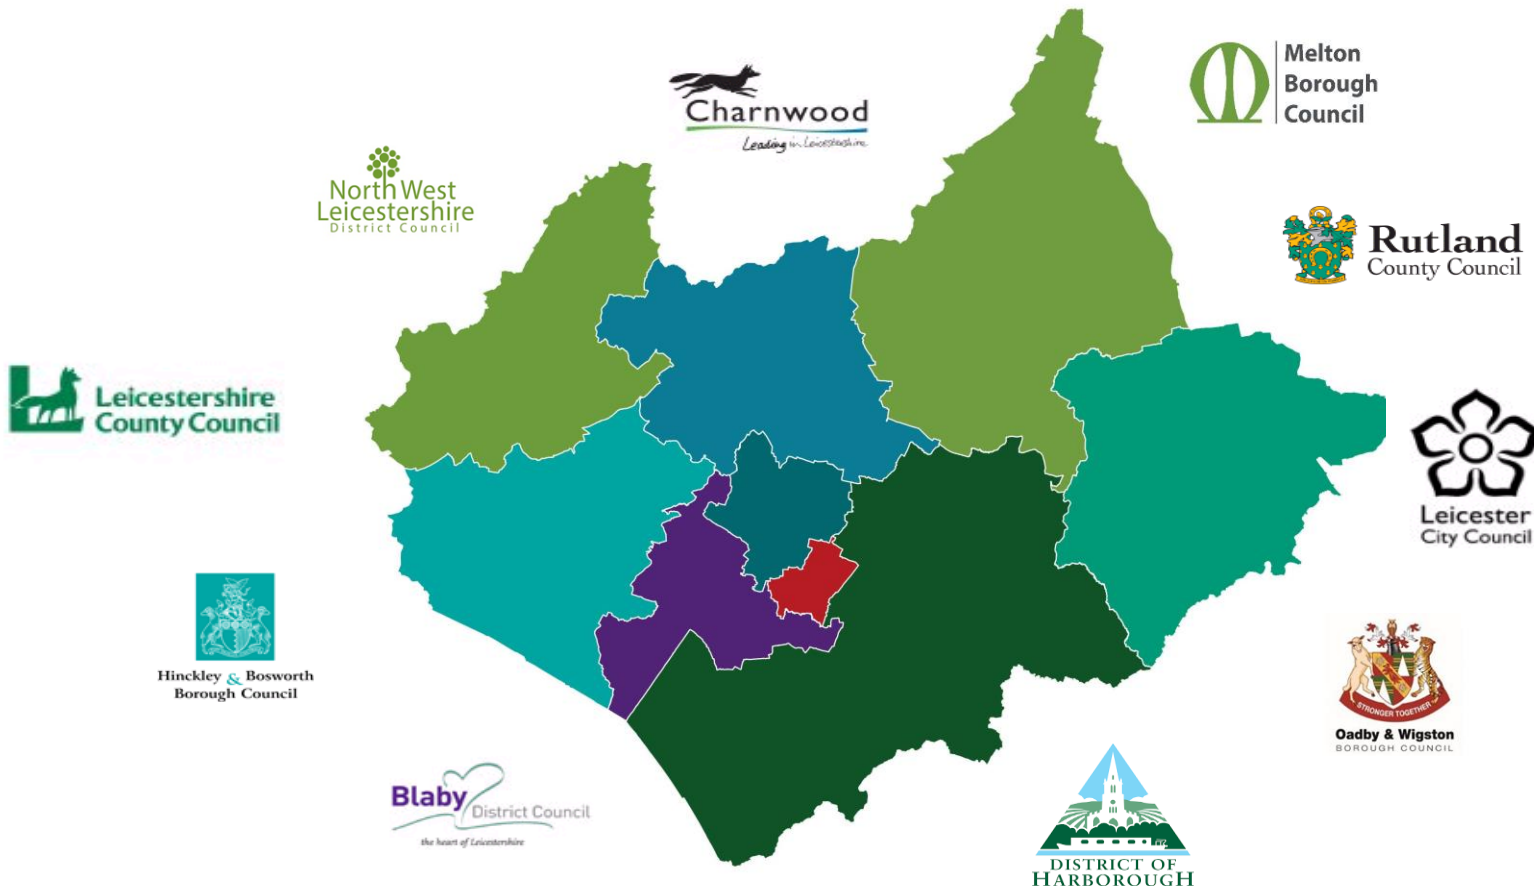

Category 2 Responders

Other Responding Organisations

Resilience Partnership

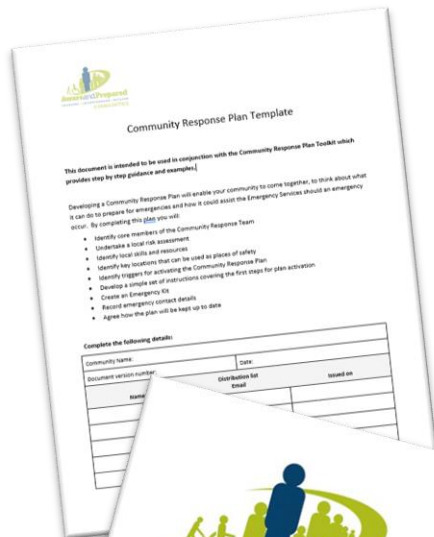

Resilience Officer

- Supports Local Authorities in meeting their responsibilities under the CCA 2004 and National Resilience Standards by:
 - writing, reviewing and embedding incident plans
 - supporting local incident management groups
 - acting as local link between the Local Authority and partner organisations
 - identifying Emergency Centres
 - providing training and exercising
- Provides access to specialist knowledge, including Mass Fatalities, Animal Disease, Chemical Sites
- Provides a 24/7/365 Duty Officer support on a rota basis

Risks for Leicester, Leicestershire & Rutland

Community Response Plans

Kibworth Villages Community Emergency Plan

Updated March 2020

This plan will help the community to respond effectively to an emergency of any kind in Kibworth Beauchamp or Kibworth Harcourt.

If there is a risk to life or of serious injury or if you are in immediate danger call 999

↓

Advise the Local Emergency Response Team

↓

Convene at Kibworth Grammar School Hall

↓

Initiate the plan

Do not put yourself or others in danger.
Follow the instructions given by the emergency services.
Try to remain calm, think before acting, and reassure those around you.
Check for injuries to yourself and others, and always attend to yourself first.

Introducing Community Response Plans

**Building
Resilience
Together**

- An emergency plan aims to prevent emergencies from occurring and reduce, control or mitigate the effects of emergencies when they occur.
- Emergency planning is a cycle
- How does emergency planning fit in the wider context?

Proactive
Holistic building approach

Proactive
Reduce risk of an event

Proactive
Preparation for an event

Responsive
Responding to the event

Who has an emergency plan?

- Government
- Local authorities
- Emergency Services
- Businesses
- Homes
- Communities

What does an Response Plan look like?

**Building
Resilience
Together**

Fire Evacuation Plan

Jubilee Building Ground Floor

Welcome to our Department

Please take a moment to familiarise yourself with the exit routes and fire procedures should you need to evacuate quickly. If the alarm does sound, leave the building by the nearest exit.

Personal and Family Preparedness

"In an emergency, individual preparedness builds community resiliency."

Central Checklist

- Learn about the hazards in your community and how to respond to them.
- Discuss emergency preparedness with your family.
- Create a Plan for you and your family.
- Put your Plan into action: create your emergency kit, learn first aid skills, take pictures of your home and belongings, make copies of important documents, etc.
- Practice your Plan with your family on a regular basis .
- Talk with your neighbors about what you are doing, resources and skills you can share, concerns you have, etc.; Find out about disaster planning at your work, your child's school or day care and other places where your family spends time.

What Do I Put In My Plan??

Include information specific to you and your family: how you will in get in touch with one another, where you will go and what you will do in an emergency. Here are some ideas to get started.

- ✓ Name, date of birth, social security number, important medical information for each family member.
- ✓ Name, address, phone number and evacuation location of workplaces and schools of family members
- ✓ Out of town contact(s) and local contact(s): name, number and email address
- ✓ Neighborhood meeting place
- ✓ Home evacuation locations: one close to home, one further away where the family can congregate.
- ✓ Community evacuation routes.
- ✓ Designate one family member to make decisions if things don't go as planned.
- ✓ Important Information for Doctors, Pharmacists, Medical Insurance, Homeowner/Rental Insurance, Veterinarian/Kennel, etc.: include name, number and policy information.
- ✓ Inventory of Possessions: make a visual or written record of possessions to help claim losses or damage. Include photos of cars, boats, other equipment; home, yard, pets (for ID); get professional appraisals of jewelry, collectibles, and other valuable items.
- ✓ Location of and instructions/pictures for shutting off main circuit breaker, gas valve, water valve—contact information for those companies is also helpful.
- ✓ Location of emergency kits.
- ✓ List priority items to take if you must evacuate in a hurry— assign items to each family member.
- ✓ Key information about responding to a specific hazards (ie: what to do during an earthquake)

EMERGENCY

preparedness and planning in Canada

1 CANADIANS THAT RESIDE IN A HOUSEHOLD WITH THE FOLLOWING WORKING DEVICES

98%
smoke detector

60%
carbon monoxide detector

66%
fire extinguisher

About **42%** of Canadians live in a home with **ALL THREE** of these devices.

2 SAFETY PRECAUTIONS CANADIANS HAVE TAKEN TO PREPARE IN CASE OF AN EMERGENCY

wind-up or battery-operated radio

58%

48%

alternative source of heat

alternative source of water

43%

23%

back-up generator

3 EMERGENCY PLANNING AND PREPAREDNESS ACTIVITIES

69% list of contact numbers

60% emergency exit plan

53% copies of important documents

33% designated meeting place for household members

47% emergency supply kit

4 MOST COMMON PERCEIVED WEATHER-RELATED, NATURAL AND HUMAN-INDUCED HAZARDS

86% winter storms

76% extended power outages

51% outbreaks of serious or life-threatening disease

50% industrial or transportation accidents

49% heat waves

44% contamination or shortages of water or food

42% floods

41% earthquakes

5 CANADIANS THAT FEEL CONFIDENT THEY WOULD KNOW WHAT TO DO IF CONFRONTED WITH AN EMERGENCY SITUATION

74%

6

CANADIANS THAT HAVE SOMEONE TO RELY ON FOR HELP IN CASE OF A MAJOR EMERGENCY

	ONE TO 5 PEOPLE	MORE THAN 5 PEOPLE
Help if injured	34%	60%
Emotional support	36%	59%
A place to stay	40%	54%
Financial help	59%	24%

Emergency Response Flow Chart

Leader A & B

Assess the situation. Identify the number of people injured, ill, missing, etc.

Identify risks to the rescuers.

Neutralize the risks to the best of your ability before proceeding. Do not initiate a rescue for which you are not properly trained (whitewater rescue, cliff rescue)

Approach the victim.

Leader A

The leader with the most first aid experience must take control of the treatment. Declare that you are in charge of the patient.

Assess and stabilize the patient's condition.
Primary Assessment
Secondary Assessment
Treatment

Talk confidently with the patient, whether s/he is conscious or not. It will calm you both.
Write everything down
Use group members as assistants when needed. A runner can inform the rest of the group on the patient's condition.

Leader B

Take charge of the rest of the group.
Find a nearby location for camp.
Setup camp.
Prepare to send a team to go for help.

What is a Community Response Plan?

**Building
Resilience
Together**

What is a CRP?

It is a document

It is a collaboration

It is a plan, that will change

To enable your community to come together.....

Think about preparing for an emergency.....

& how you could assist emergency services.
